**August 9<sup>th</sup>, 2013**

***My Clients and I are in Canada Fishing This Week! Our Regular Kentucky Lake Fishing Report will Resume Next Week ...***

Round Two of our Guided Canadian Wilderness Fishing Adventures is taking place this week. We'll have a complete recap with photos for you next week.

**Imagine ... this could be YOU!**

**That's right, it could be you! ...** Have you ever thought about going fishing in Canada? After all who wouldn't want to go, right! Maybe you would like to go but feel uncertain about putting the trip together or going by yourself. No problem! Let Kick'n Bass put together a trip of a lifetime for YOU! With nearly three decades of experience exploring and fishing the Northwoods, we use our angling know-how and wilderness skills to make your trip a memorable one. Don't take our word for it, here's what a couple of anglers had to say about their trip ...

*Randy, I've used the phrase "experience of a lifetime" before, but our BWCA / Quetico wilderness adventure trip redefined this for me. If someone's idea of a wilderness adventure is meticulous trip pre-planning and preparation, a beautiful campsite, 5 star menu, comfortable sleeping accommodations, awe inspiring wilderness beauty, and throw in great fishing as a kicker, then this is the trip for them. I want to thank you*

*for providing the opportunity for me to share this experience with my 74 year old father, and other good friends, which now includes you and Clyde. The lord willing, this will not be my last opportunity to express my appreciating for Kick'n Bass Guide Service.*

*Jimmy Davis - Sikeston, Mo.*

*I had a feeling that I'd have a great time with my father in BWCA / Quetico Provincial Park since we'd been on canoe trips before and always had a good time. But, this trip was beyond anything I expected.*

*Breathtaking views, great fishing, and amazing food are just a few reasons that I can't wait to go back. This was the best camping experience of my life by a long shot. In fact, I'm not sure how it could be any better. Most people go on these trips and their best food is freeze dried, trail mix or beef jerky. Randy and Clyde made sure we didn't go hungry. Beef filet mignon, a shore lunch of fried walleye within 3 hours of being caught, and pork tenderloin cooked over an open fire were just a few of the top notch menu items. They also made sure we were comfortable at all times, even being in the remote wilderness. I joked around about feeling like I was in a four bedroom*

*condo the whole week. But, that's just what it felt like. With the top of the line equipment we were provided I slept better, if not as well as I do at home. The fishing was also better than anything I have ever experienced. I caught 3 of the biggest smallmouth bass of my life with two over 20 inches and one right at 21. I knew I would have fun, but the memories I made with the group are unforgettable. The best part is that I got to share them with my father. If you're reading this, you have to find a way to make this trip happen. Kick N' Bass will take it far and beyond anything you could ever imagine.*

*Gabe Dement – Sikeston, Mo.*
