Oct 30, 2015

Be Sure and Attend the Big Open House at Bass & Gas this weekend

The poster for the Bass &amp; Gas Open House Event is a vibrant, action-oriented graphic. It features a fisherman in a black jacket and a yellow cap, leaning over the side of a boat, holding a fishing rod. In the background, a large Lowrance HDS 12 sonar display is shown, displaying various sonar readings and a map. The text 'Bass &amp; Gas' is written in a large, stylized font at the top, with 'TACKLE &amp; MORE!' in a smaller font below it. The dates 'OCT. 30-31, 2015' and the times 'FRI 1PM-6PM' and 'SAT 10AM-6PM' are listed. The main title 'OPEN HOUSE EVENT' is in large, bold, yellow letters. Below this, the text 'GO FREE' is in a blue box. The Lowrance logo is prominently displayed, along with the slogan 'FOR ANGLERS WHO WANT IT ALL: FIND. NAVIGATE. DOMINATE.' and the website 'WWW.LOWRANCE.COM'. A list of event features includes 'FREE SEMINARS', 'GIVEAWAYS / RAFFLE', 'ON THE WATER DEMOS', 'NEW PRODUCT DEMOS', and 'HUGE PRODUCT DISCOUNTS'. The Lowrance logo is repeated in large, bold letters at the bottom. A small logo for 'race cure' is also present, along with the text 'RAFFLE PROCEEDS GOING TO'. The bottom of the poster features logos for 'PRECISION SONAR' and 'BARKLEY LAKE'.

**Lake Levels ...** Current lake level is approximately 4 feet below summer pool and on a slow drawdown in accordance with the normal TVA operating schedule. For additional info, including generation schedule for Kentucky Lake, visit the TVA website:  
[http://www.tva.gov/lakes/kyh\\_r.htm](http://www.tva.gov/lakes/kyh_r.htm)

**Water Clarity and Temperature ...** Both lakes have what I would consider ideal water clarity for fishing. The Lowrance temperature probe on my Ranger showed surface water temp at 65 degrees on the main lake with the water warming in the afternoon on sunny days.

### **Weather Outlook**

**Friday...**Sunny. Highs in the lower 60s. East winds 5 mph.

**Friday Night...**Mostly cloudy with a 20 percent chance of showers. Lows in the upper 40s. East winds 5 mph.

**Saturday...**Cloudy with a 50 percent chance of showers. Highs around 60. Southeast winds 5 to 10 mph.

**Saturday Night...**Cloudy with a 50 percent chance of showers. Lows in the lower 50s. South winds 5 to 10 mph in the evening shifting to the southwest after midnight.

**Sunday...**Mostly cloudy with a 50 percent chance of showers. Highs in the lower 60s.

**Sunday Night...**Mostly cloudy with a 20 percent chance of showers. Lows in the mid 50s.

**Monday...**Partly sunny with a 20 percent chance of showers. Highs around 70.

**Monday Night...**Mostly clear. Lows in the mid 50s.

**Tuesday...**Mostly sunny. Highs in the lower 70s.

**Tuesday Night...**Mostly clear. Lows in the mid 50s.

**Wednesday...**Partly sunny. Highs in the lower 70s.

**Wednesday Night...**Mostly cloudy. Lows in the mid 50s.

## **Fishing Report ...**

### **We're Going to Let the Pictures Do the Talking This Week ...**

Whenever one of our clients goes "above the call of duty" we like to recognize them for what they've done.

Donnie Neakarse caught this fish of a lifetime on a Steel Shad Blade Bait and what a fish it was. A 30 lb Striper. Who said there aren't any big stripers in Kentucky Lake! Way to Go Donnie that is one HUGE FISH!

# ***From The Kick'n Bass Pontoon***

***The Big Crappie are showing up again. Mike and Carla Hankins from Paducah with some nice ones and Carla with a nice bass. What's it like Mike to get out fished by your wife? LOL! Somehow I think Mike doesn't care and was real happy for Carla. Carla ... I wouldn't make a habit though!***

***Spencer Templan from Lexington Kentucky (Below) with a monster crappie caught trolling cranks from the Pontoon***

## ***Come Fish With Us On the Kick'n Bass Pontoon!***

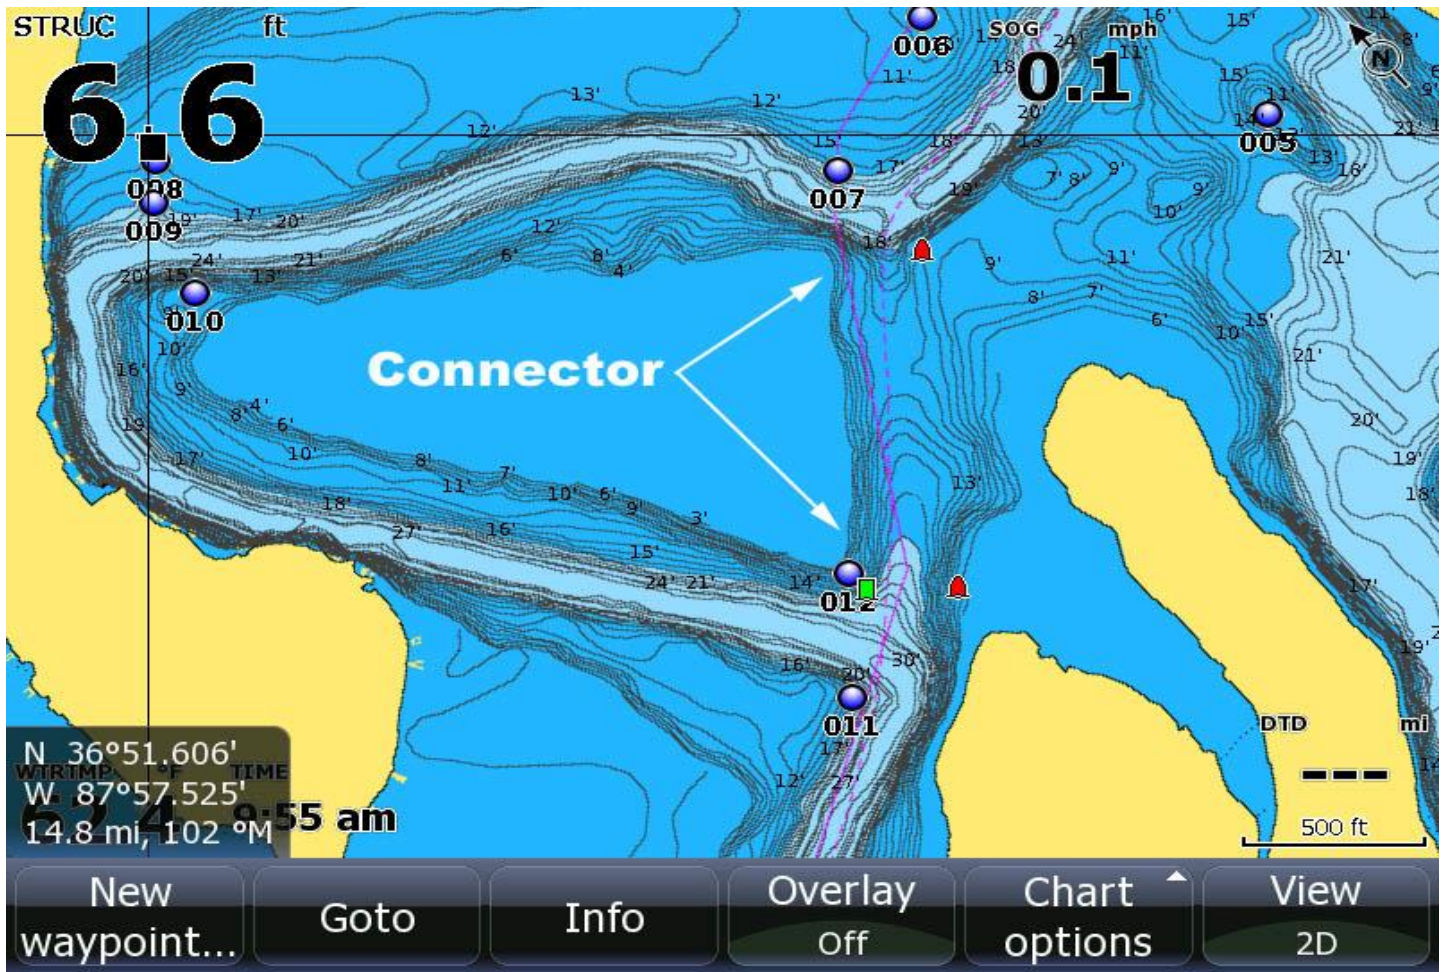

***Have a Blast on the Kick'n Bass Pontoon. Families and Groups Welcome and Corporate Trips are our Specialty. We appreciate folks with Special Needs. We furnish the rods & reels and lures, clean and package your catch. It's the BEST VALUE on the lake. Book Your Trip NOW! Call 270-703-6133***

# ***Precision Sonar***

## ***Electronics Tip of the Week***

Sonar Accessory website: <http://precisionsonar.com/index.htm>

### ***Understanding Your Electronic Topo Map Will Help You Become a Better Fisherman***

*In this screen shot you will notice a connector between two waypoints. Actually the connector is a drainage ditch that was formed from overflow from the original creek bed back in the day when this area was farmland. It's places like this that are easy to overlook. Rest assured that any connector that bridges two bodies of deep water is worth looking at.*

*In our sonar class we spend a quite of bit of time educating our fellow fishermen on how to get the most out of their electronic topographical map. Electronic maps are updated periodically and in a lot of cases are more current than the older paper maps.*

*Not everyone can spend 300 days a year on the water and time fishing is limited to the weekends and an occasional day off. It's important to be able to make the most of your time on the water. In our class you'll learn to take an area the lake and condense it to a manageable form, thus eliminating unproductive water and find areas that have the*

*highest potential to hold game fish. Having the most updated Navionics map card is essential to do this. As you can see, among other things, fish holding areas like submerged road beds, foundations and creek channels are clearly defined.*

*Our sonar class is a hands on, in your boat, using your electronics program that will take your sonar ability to the next level. Schedule your personalized "On the Water" Sonar Class and contact [rk@precisionsonar.com](mailto:rk@precisionsonar.com)*

***Here's what some of our clients are saying about  
Precision Sonar's "On the Water" Sonar Class and their  
Precision Sonar Mounting Systems ...***

*Hey Randy,*

*Thank you for the excellent "On the Water Sonar" class! What you taught me was excellent. I was able to immediately go out, find and catch fish in a whole other part of the lake. In just a couple of hours, you were able to "up" my game several notches! The two Lowrance HDS Gen 3 units worked perfectly also. So perfect, there were several times I saw pictures just like what you post in your report. I should take pictures and send them along next time. Matt Quinn and the boys at Bass N Gas did a fantastic job also! I will be sure to pass along my recommendation to everyone.*

*Thank you!*

*Dan McCoy - Indiana*

***Dan it was a pleasure meeting you and we appreciate all the kind comments! Thanks for recognizing the guys at Bass & Gas. They do a great job of making folks happy!***

***RK***

***Remember ...***

*The first step in our "On the Water Sonar Class" is to perform an inspection of your system to make sure the installation has been done to factory specs and all components are installed in the proper location. We'll meet at our Installation and Repair facility and if adjustments are needed we can have them made prior to beginning your class. Doing so assures you that your system will perform at a high level and you'll get the most out of your time on the water.*

***Our service is not an indoor seminar, watching a video on youtube, or looking at a depth finder in a classroom. It's hands on, in your boat using your electronics class that will take your understanding and know-how to another level!***

**IF YOU'RE **CONFUSED, FRUSTRATED, AND NEED ANSWERS** then Precision Sonar's "On the Water Sonar Class" is for YOU!**

**Here's just some of what Precision Sonar can do for YOU!**

- Make sure your HDS unit(s) has the correct settings for the type of fishing you do.
- Program the individual screens and install the overlay data on the screen that you want. Example: Depth, Water Temp, Time, etc.
- Arrange the screens so they display what you want them to show and make going from page to page orderly and non-confusing.
- Eliminate unwanted, non-practical on screen data that clutters your screen and gets in the way of using your unit to its maximum potential.
- Learn the art of waypoint management. No more cluttered maps with useless or unproductive waypoints. You'll learn how to identify which locations are waypoint worthy and how to go back to those locations without ever assigning a waypoint. You'll learn to only assign a waypoint once you are satisfied the location is worth saving.
- Demo the unit for you to help you be familiar with the screens and commands, so you'll have a good understanding of how to use the unit and take advantage of its fish finding capabilities.
- Provide you with back up material to keep you on track once the class is over

As a bonus you'll learn to read an electronic topo map and learn how to condense and area to a manageable level and identify those sweet spots that hold fish.

**Check out the **PRECISION SONAR Console & Bow mounting systems for your boat at [www.precisionsonar.com](http://www.precisionsonar.com)****

**Precision Sonar Single Mount and Side by Side Mounting systems available for FX, ZX and iClass Skeeter consoles.**
